

## Note

**Please check the version of the control board included in the product you purchased first!**

**Note:** Different versions of the control board use different types of batteries.

However, their functions are the same and they use the same code.

- If it is marked with V3, please buy battery according to this document and assemble the robot according to "Tutorial\_for\_V3.pdf".

- If it is marked with V2 or unmarked, please buy battery according to “AboutBattery\_for\_V2.pdf” and assemble the robot according to “Tutorial\_for\_V2.pdf”.

# About Battery

## Important Notes

**! Please prepare the right batteries and fully charge them before assembling.**

Assembling the robot without right batteries will cause installation errors and damage the servos.

**! The control board connected to the USB cable will not charge the batteries. So you also need a charger.**

Almost any charger suitable for 18650 batteries can be used.

## Purchase Links

Please find the battery description and purchase links on the following page:

[https://github.com/Freenove/Freenove\\_Battery\\_List/blob/main/18650\\_Flat-Top\\_Unprotected.md](https://github.com/Freenove/Freenove_Battery_List/blob/main/18650_Flat-Top_Unprotected.md)

**! Some links in the list may be invalid, please select other available links or purchase by yourself.**

**! If you need help or want to report a link failure, please contact [support@freenove.com](mailto:support@freenove.com)**
